- **DIGITAL PVC DOOR**
- **WPVC DOORS**
- **WPVC FRAMES**
- **PVC CEILING | WALL PANEL**

Company Overview

We are a premier and well-known manufacturer of **PVC profiles in India, since year 2000**. Our working is enabled by directors having a rich and varied experience of over 23 years in this field.

The company's versatile product range comprises profiles for partition, ceilings, wall panels, single piece door, canopy / huts / cabin and an extensive range of PVC furniture.

The entire range carries a hologram to ensure Genuineness and confirms to superior quality achieved by deep R&D. In addition, these products being substitute for wooden furniture help in preserving our environment.

We are reputed for our commitment to cost-effective designs and development of customer-specific PVC extruded profiles and sections, as per client's unique requirements within demanding time-frames. This is made possible by our Development Center, which is equipped by advanced tools, dyes, mould designs, ably supported by a modern tool room.

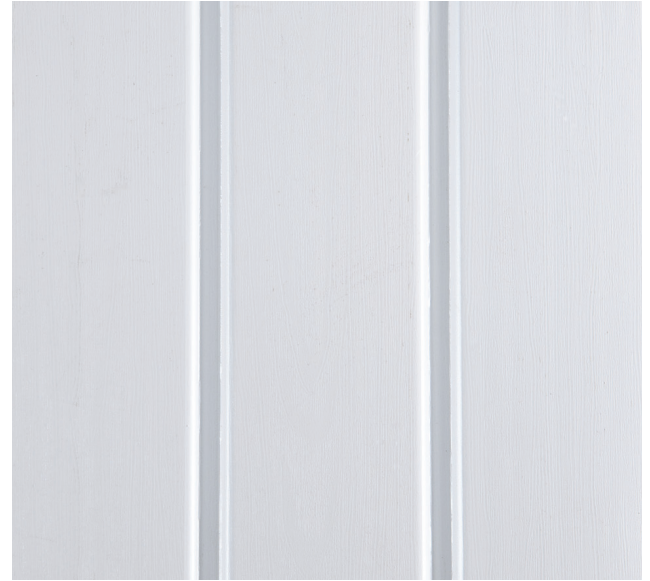

We are renowned for Quality and Quantity. A fact which has won, the abiding trust of Esteemed clients, for over a decade.

There are many advantages of using PVC doors and ceilings as they are completely water proof, termite proof as well as fire retardant. PVC doors and ceilings save lakhs of trees every year as they are a wood substitute and can also be recycled. Our products are cheaper compared to wooden doors and POP ceilings and are durable. Customers purchase our products because they trust the quality of our goods. It has taken us more than one and a half decade to establish such a brand name in the market where customers would not doubt about our product's quality.
