

ROMANIA

digital blinds

A blind for Every window

Vol.-01

Digital Blinds

Create a pleasant environment both by day and night.

Interior roller blinds will protect you from the glare of street lamps at night and perfectly screen out sharp sunlight in the daytime.

Choose from many possibilities of classic roller blinds over the modern design up to timeless design of day night products with never – ending fabric...

Whether you choose a fully obscuring material or material partially transmitting light, you will always get an elegant and a fully functional complement to your interior which will enhance the atmosphere of your home.

Representative of certifications and eco-labels applicable to HP Latex Technology¹⁶

HP Latex Technology delivers all the certifications that matter to your operators, your business, and the environment

Note: PSPs must seek certifications and eco-labels directly with certifying bodies¹⁷

End-to-end sustainability—a better approach

HP Latex Technology has fundamentally changed the environmental profile of signage, decoration and textile printing. With an end-to-end approach, HP continues to set the standard for more sustainable large-format printing.

Recognized as one of the most sustainable companies in the world,¹⁸ HP has the commitment and the scale to address current—as well as anticipated—environmental requirements, and to continue leading the change in signage printing.¹⁹ By working closely with our partners and customers, and closely managing each component of the printing system (printer, inks, and printheads), we can design and deliver products that provide an end-to-end large-format printing solution that's better overall:

- Better for printing companies and print operators
- Better for the end-customer, enabling more differentiation
- Better for the environment

HP Latex Technology carries a broad set of credentials addressing the full spectrum of health and environmental concerns from ink chemistry and indoor air quality—for both print production and display—to lifecycle considerations that earn recognition for products as environmentally preferred overall. This document provides a description of each of the environmental certifications and eco-labels applicable to HP Latex Printing Technology.

Each certification and eco-label applies to specific products—in many cases in specific configurations or under specific circumstances—within the HP Latex Printing Technology portfolio. For the most current information on certifications and eco-labels for each HP Latex printer, reference product data sheets available at hp.com/go/latex. The certifications and eco-labels highlighted above apply as of January, 2016.
